

THE 0.75X WA ADAPTER UNLOCKS LIMITLESS CREATIVE POTENTIAL IN VISUAL STORYTELLING.

WA 0.75X ADAPTER

TYPE EZ-1 and EZ-2

Our **0.75x Wide Angle Adapter** helps directors of photography and filmmakers who want to easily increase their wide angle Optimo's field of view, **by shortening the focal length by a factor of 0.75 without losing T-Stop**

Designed to be attached in the front of the Type EZ-1 and EZ-2, **your zoom remains parfocal.**

The initial focus range function will be reduced by 4 when using the 0,75x Wide Angle Adapter.

Distortion is minimal.

*Like for any other wide angle lens attachments, the focus markings won't be valid anymore.

Ratio	0.75x
MOD	5' / 1,52m
Front diameter	144mm
Weight	1 lb / 485g
T. stop	remains exactly the same

*Clamp ring diameter: 114mm

THE EZ-3 IS NOT COMPATIBLE WITH THE 0,75X WIDE ANGLE ADAPTER.
